

PRO-MIX[®]

PRO-MIX[®] HPO

THE MOST ORGANIC WAY
TO GROW YOUR PLANTS

BIOSTIMULANT + MYCORRHIZAE[™]

PRO-MIX[®] HPO is our new growing media approved for organic use that offers low water retention and high air porosity. It's the HP growing medium you love, adapted for organic cannabis growing.

The HPO has been designed as an adaptable blank canvas, meaning there is no fertilizer charge inside the growing media. It's a superior and consistent growing media base with the added values of MYCORRHIZAE and BIOSTIMULANT that growers can build upon using their own unique recipes.

NO BASE
FERTILIZER ADDED

APPROVED FOR
ORGANIC USE

Same performance. Now approved for organic use.

| SIZE | 3.8 cu. ft. |
| Units per pallet | 30 |
| Type | Compressed |

ACTIVE INGREDIENTS

B BACILLUS – PTB180 Technology, *Bacillus pumilus*

Bacillus stimulates the plant root system by inducing the proliferation of the root hairs, which favors the absorption of the nutrients. We have selected it for its beneficial action of growth stimulation.

- Increases the number of root hairs for better nutrient absorption
- Accelerates seed germination
- Increases plant growth

M MYCORRHIZAE™ – PTB297 Technology, *Glomus intraradices*

Mycorrhizae are beneficial associations between a mycorrhizal fungus and roots. Mycorrhizal spores germinate in the growing medium and produce filaments (hyphae) which will enter into root cells. This association will allow the formation of an intra and extra-radical network of filaments that will explore the soil and access more nutrients and water, and transfer them to the plant.

- Expand root system growth
- Enhance nutrient & water uptake
- Increase tolerance to stresses
- Reduce transplant shock
